Welcome to our latest 2019 Newsletter

## A Message From Colin

Welcome to our first newsletter of 2019, where we hope to keep you up to date with news, offers, events and new treatments that we are now providing at Bespoke Dental Care.

August 2018 saw Dr Farzana Islam join our team, Farzana qualified at Kings College Hospital London and brings a wealth of experience in general and cosmetic dentistry, including CFast, a short term orthodontic treatment. I look forward to seeing you during the year ahead and hope that you will take full advantage of our friends and family offer, as myself and the team always look forward to welcoming new and existing patients who we can offer our personalised dental experience to.

## New Year... New You!

Amanda our hygienist/therapist is also an advanced aesthetics practitioner and will begin offering anti-wrinkle treatment and dermal fillers at Bespoke Dental Care!

**Beautification** is the new buzz word, but putting it simply the aim is to enhance your natural beauty & features and to address any facial concerns you may have.

Did you know? Fillers are made from hyaluronic acid which naturally occurs in our bodies, our procedures replace and plump up existing HA in the skin.

Botulinum Toxin 'Botox' is a protein and alters the messages to the muscles which gives our faces the smoother look.

Contact us for info or to book a **FREE** consultation  
Call - 01474 355493 Email - info@bespoke-dentalcare.co.uk

**Introductory Offers Available Now**

## Bespoke Dental Plan

We have introduced a new 'Hygiene Plan' along side our Maintenance plan. Our membership plan is a simple and easy way to spread the cost of your annual dental maintenance. The Hygiene Plan allows patients to have **2** check ups, **4** hygiene appointments, **10%** off selected treatments and worldwide dental emergency and accident insurance each year for just £24.95 pm. To sign up just visit our website or ask in practice.

Sensible finance plans can help spread the cost of Dental treatments, enabling you to receive quality oral health care without worrying about your finances.

At Bespoke Dental Care we are happy to offer our patients flexible payment terms with 0% interest for treatments through our partners Chrysalis Finance.

If you are aged over 21 and require dental treatment you could be eligible for a finance plan.

Our friendly team can talk through the options for you, to help determine if a payment plan is right for you. If you decide to go ahead we can help you complete the application.

A finance calculator is available on our web site to give you an idea of the monthly costs. Why not check it out now?

## *Treatment Co ordinator Service*

Providing treatments and a service which allows our patients to feel as calm and as comfortable as possible whilst at a dental visit is one of our main objectives at Bespoke Dental Care. This is why we are introducing a treatment co ordinator service to the practice, this service is free of charge to all patients and allows you to ask questions and be taken through your treatment plan step by step in the comfort of a quiet room with a knowledgeable member of staff.

We will sit down with you and have a cup of tea or coffee, which ever you prefer, and have a chat. You can ask any thing you may not have thought of whilst in the treatment room and understand what is going to happen at each appointment you book in for. It also allows us to plan out your finances, whether it be paying as you go, taking up a finance option or joining one of our Bespoke membership plans to help save you money.

We are hoping that this service provides our patients with all the information they would like to know, some peace of mind as well as a more private 'Bespoke' dental service.
